Massam's is the maker of dessert nougat candy bars that are wrapped in edible rice paper. This unique dessert treat is about half the size of a Snickers bar and it offers a blend of tasty honey and almond flavors with the rice paper giving it a slight cereal quality. Mrs. H.S. Ball's Original Chutney

Based on a family recipe that survived a shipwreck, Mrs. H.S. Ball began making her Original Chutney in the 1890's. This mildly flavored chutney includes dried peaches and dried apricots with a wonderful mix of seasonings and vinegars. Chutney is traditionally served with curry in South Africa, but it's also a delicious accompaniment to cheese and roasted meats. It can be added to stews or marinades to add extra body and flavor, too!

Nando's Peri-Peri Sauce

The Nando's story started centuries ago, when the Portuguese explorers set sail for the East in search of adventure and the legendary spice rout. The winds of Africa called them ashore and it was there, the rich soil, that they discovered the African Bird's Eye Chilli. A spice like no other, Peri-Peri is packed with flavor and a tingle because it is made with spices, sun-ripened lemons, onion, a dash of garlic, and the special ingredient - the African Bird's Eye Chilli. It's unique taste will put a fire in your belly! Nando's produces a range of Peri-Peri flavors including Medium, Garlic, Hot, and Extra Hot. Use it on beef, chicken, hummus, sweet potatoes, and more!

All Gold Ripe Fig Jam

Reminiscent of homemade jam, the All Gold Ripe Fig Jam is a top seller and ever popular South African product. Figs are ripened to perfection and then carefully picked and gently cooked in the traditional way. It's blended with cane sugar and the result is a chunky, slightly-sweet spreadable jam with real fig pulp and an authentic taste. Try spreading the jam on cheese and crackers or a piece of toast. Enjoy!
